Teka Kitchen Division

In Kitchens, Teka numbers among the leading sink and built-in appliance brand, manufacturing quality home appliances, commercial equipment and most importantly - Kitchen sinks.

It is one of the world's largest producers of sinks and the only technology manufacturer in today's market offering a fully integrated range.

Teka is a world-wide brand with sales offices and production facilities in every corner of the world in over 125 countries in 5 continents. In addition to its own facilities various agents across the world have chosen Teka as their company partner.

Splash Zone Official Supplier

In Kitchens, Teka numbers among the leading sink and built-in appliance brand, manufacturing quality home appliances, commercial equipment and most importantly - Kitchen sinks.

It is one of the world's largest producers of sinks and the only technology manufacturer in today's market offering a fully integrated range.

Teka is a world-wide brand with sales offices and production facilities in every corner of the world in over 125 countries in 5 continents. In addition to its own facilities various agents across the world have chosen Teka as their company partner.

Teka Brand

One of Teka's main commitments is towards the enhancement of brand awareness, as an intangible added value. Hence our active involvement for over two decades in promotional events and sports sponsorship, in which Teka is a pioneer. In recent years, Teka has supported teams in a range of sports like cycling (from 1976 to 1990), handball (between 1989 and 2005) and football (from 1994 to the present).

Probably our largest, most successful sponsorship deal was with Real Madrid F.C. So close was the partnership between these two international names that it's almost impossible to recall a Real Madrid championship win without the Teka logo on the players' shirts.

Teka 90 Years

Innovation and a strict commitment to the highest quality standards are two ideals that make Teka the first choice for more and more homes.

Since 1924, Teka has dedicated all its resources and expertise to achieve a single goal: improving the quality of life of millions of customers.

From innovative design to improved features, every production process undergoes constant development. At Teka, even the smallest detail counts. When you consider just how much time you spend at the kitchen you realise how important it is to have a kitchen that combines design with user-friendliness.

Teka Mixers

A limited range of Teka mixers are stocked as part of our South African offering.

These mixers are both beautiful in design and excellent in quality. Each mixer contains a ceramic cartridge which allows smooth operation for years to come.

Ceramic Discs

All Teka cartridges use sintered ceramic discs of high resistance. These discs all have porous surfaces which retain the grease longer helping to achieve smoother, gentler movements and therefore prolonging the life of the taps. The operating gear is insulated from water giving therefore continuous lubrication

Molybdenum Reinforcement

Cartridges that have stainless steel washers, which act as a type of bearing, offering a smoother, gentler movement and avoid the wear caused by friction. Ceramic slide holders reinforced by Molybdenum improves the soft movement and durability of the cartridges.

Mixer Features

High quality st/st flexible inlet pipes with watertight o-rings fulfill the requirements of the most demanding quality control internationally.

Quick and easy fitting system: A simple 12mm box spanner is enough

Temperature Limiter: Save the energy used to heat water with the temperature limiter in the cartridge.

Water Saving: The cartridge incorporates an adjustable flow limiter to save water.

Anti-Scalding: Forget about scalding caused by hot mixer heads.

Teka Choice

Kitchen mixers were once a simple necessity. Now you can get kitchen taps to match any style and decor in an array of finishes and layouts. New designs and technologies that can help make your kitchen space more cook friendly, while also contributing to your overall selected style.
